PROFILE

Front-End Developer at Global Turbine Asia (a joint venture with SAFRAN) with nearly one year of experience in software development. Collaborated with the Aerospace Malaysia Innovation Centre (AMIC) to build asset tracking, work order management, and schedule optimization systems. Skilled in Figma prototyping, REST APIs, AWS Lambda, and RDS PostgreSQL. Experienced with MySQL, Laravel, jQuery, and Axios, using Postman and Artisan CLI for development. Familiar with Flutter, Firebase, Power BI, and Azure Database. Passionate about delivering user-focused software solutions through agile methods and continuous learning in software engineering

TECH STACK

Frontend: HTML, CSS, JavaScript, React, jQuery, Axios, Figma

Backend: Laravel, RESTful APIs, MySQL, PostgreSQL, AWS
Lambda, Python, Java, Firebase

DevOps / Infrastructure: Docker (basic containerization)

Tools & Data: Git, Postman, Power BI, Google Apps Script
Codex

EMPLOYMENT HISTORY

Front End Developer

Global Turbine Asia (a joint venture with SAFRAN) / SUBANG

March 2025 - Now

- Collaborated with stakeholders across departments to define system requirements and translate business needs into clear technical specifications.
- Designed and improved internal systems that led to a 35% reduction in manual processes and improved data accuracy and integrity.
- Facilitated user acceptance testing (UAT) and created training materials for successful user adoption.
- Coordinated with developers and QA teams during implementation and issue resolution phases.

Data Analyst (Internship)

Pejabat Pelajaran Daerah Hilir Perak (PPD)

March 2024 - August 2024

- Developed a SPM Dashboard for Hilir Perak District: using Google App Script, Sheets, and Drive to visualize student data, enabling easier analysis, forecasting, and program planning while reducing manual processes.
- Created a Power BI dashboard for the Bahasa Melayu Department to enhance data visualization for presentations and reporting, improving data clarity and decision-making.
- Produced Corporate Videos (internship): Recorded and edited corporate videos using CapCut and Canva.

EDUCATION

Bachelor Of Computer Science (Intelligence System)

UPNM | Kuala Lumpur Malaysia

CGPA : 3.11

Graduated : 2024
